Am I a good candidate for ZOOM Whitening?

There are many factors that affect how well your teeth will respond to whitening. Generally it works best for people that have stained their teeth over the years with smoking, tea, coffee or sodas. If you are not completely satisfied with the results immediately after your treatment you can purchase a complete Opalescence Take home whitening kit for only \$99, which may be used for a couple weeks at home to further boost the whitening effects ... for those who still don't achieve their whitening goal we will credit the full fee towards six or more porcelain veneers if we perform this procedure for you within 6 months of your ZOOM visit.
